

SUMMIT™

RETENTION LANYARD

USER

INSTRUCTIONS

The SUMMIT™ Retention Lanyard secures night vision devices to the SUMMIT™ shroud in case of NVG detachment.

One (1) SUMMIT™ Retention Lanyard

One (1) Split Ring

1

Take the braided loop and insert it through any of the four accessory pass-through slots on the left and right portions of the outer frame of the SUMMIT™ shroud.

2

Route the gate clasp through the braided loop to create a girth hitch.

3

Attach the split ring to your night vision device in the preferred/available location.

4

Secure your night vision device and accompanying mount to the SUMMIT™ shroud and hook the gate clasp on the NVG device.
