

SPARK™

CAGE

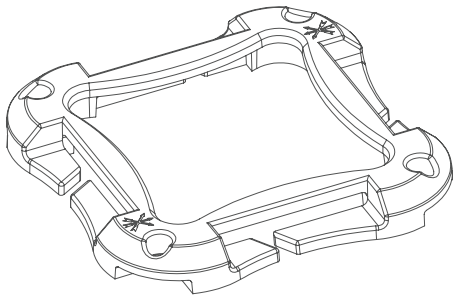

USER

INSTRUCTIONS

The SPARK™ Cage is a rugged, adaptable mounting solution designed specifically for the SPARK™. Built for professional and outdoor use, it enhances the light's versatility by enabling quick, secure attachment to a variety of surfaces and gear configurations.

One (1) SPARK™ Cage

1

Press fit the SPARK™ light into the SPARK™ Cage from the underside. Ensure the bottom of SPARK™ is flush with the bottom of the Cage. Once installed, the Cage assembly can magnetically attach to metal surfaces or be woven onto nylon straps or PALS webbing.
